Aims and Objectives

The **International Conference on Interdisciplinary Innovation in Emerging Technologies and AI (ICIET-2026)** aims to create a global platform for knowledge sharing, research collaboration, and technological advancement in the field of emerging technologies and Artificial Intelligence. The conference is designed to encourage interdisciplinary research and promote innovation-driven solutions for societal and industrial challenges.

Objectives of the Conference

- To provide an international platform for researchers, academicians, industry experts, and students to present and discuss innovative research contributions.
- To encourage interdisciplinary collaboration in the areas of Artificial Intelligence, Machine Learning, Data Science, IoT, Cyber Security, Robotics, Smart Systems, and other emerging technologies.
- To bridge the gap between academia and industry by promoting research partnerships, industrial interaction, and technology transfer.
- To support young researchers, scholars, and students by providing opportunities for presenting research work and interacting with global experts.
- To discuss ethical, social, and practical implications of Artificial Intelligence and emerging digital technologies.
- To inspire innovation, entrepreneurship, and research excellence for building a technology-driven future.

Organizing Institution

IIMT Engineering College, Meerut — the flagship institution of the IIMT Group of Colleges — stands as a beacon of excellence in engineering, technology, and management education. Affiliated with Dr. A.P.J. Abdul Kalam Technical University (AKTU), Lucknow. The college is renowned for its forward-looking curriculum, global academic benchmarks, and a deep commitment to innovation and industry collaboration. Established in 1994 by Hon'ble Shri Yogesh Mohanji Gupta, a visionary leader with a global outlook, IIMT was founded on the belief that with the right education and values, Indian talent can shape the future of the world.

Since its inception, the college has grown into a hub of academic rigor, research excellence, and transformative learning. With state-of-the-art infrastructure, advanced laboratories, and a strong emphasis on emerging technologies such as Artificial Intelligence, Data Science, Robotics and Automation, and Entrepreneurship, IIMT cultivates holistic student development. Guided by a visionary leadership team, the institution ensures students gain not only strong academic foundations but also valuable industry exposure, access to innovation ecosystems, and top-tier placement opportunities.

At IIMT, students are empowered to become confident, career-ready professionals and future-ready change-makers. Committed to bridging the gap between academia and industry, we prepare our graduates to excel in a technology-driven global economy and contribute meaningfully to society.
